EBSCOhost features multiple databases containing mostly full-text journal and newspaper articles covering areas such as business, education, psychology, health and medicine, communications, government, etc. Access it by logging into Campus Connect and then clicking on the Library tab. Click on Search and Find and then Articles.

1. Click on the EBSCOHost link
2. A list of EBSCO's databases will appear, each with a box to its left.
3. Check off the box next to the database(s) you wish to search
4. Academic Search Premier is already selected for you by default.
5. Click on either of the continue tabs (top and bottom of list)
6. A search screen will appear as shown on page 2
7. Type search terms in the search box.
1. You can use a specific search mode, such as “Find all of my search terms”; apply limiters such as Full Text or Publication type; or use search options that expand your search, such as “Apply related words.”

2. To undo the chosen searching options, click the link again.

3. Click the Search button. The Result List displays.
