Interlibrary Loan (ILL) is a service where we borrow items from other libraries for you. Place your requests online, and pick-up and return the items at the Ivy Tech Bloomington Library. Items may take a week or two to arrive, so submit your requests as early as possible.

Make your requests through WorldCat. See our FAQ-ILL page for more details.

Enter your search term(s) in the box(es) provided.

Note that you can "Limit" your search to specific date ranges, formats, etc.

In this example, we are conducting a "Keyword" search for "blood glucose." We have limited the search to items published between 2014 and 2019, and we have specifically requested books only.

When you find an item that interests you, just click on the title!
In this example, several libraries, including Indiana University Bloomington, have the item. Residents of Indiana may check out items directly from IU. You will need a state issued ID card, such as a driver’s license, to obtain your **IU Borrower’s Card**.

Once you have selected an item, check the availability. You may find that your public library or another library near you has the item. It may be quicker and easier to check out the item directly from that library.

If the item is not available near you, click on the ILL button to access the online request form.

Fill out the form completely. Be sure to include all required information, and indicate if you are faculty, staff, or student.

Then click on the “Submit” button to complete your ILL request.

**Interlibrary Loan Additional Brief Notes**

1. We will make every effort to obtain the items your request, but there are no guarantees.
2. Books & journal articles are the most frequently requested items. Audio/video requests will be handled on a case-by-case basis.
3. There is no charge for this service, but late fees may apply to items not returned on time.
4. PLEASE NOTE: We do not ILL textbooks.
